Pilot Work Streams

Introduction

- Three Work Streams:
 - Work Stream 3 – Explore Prevention of STIs, Self Help, Self Service to develop a Local Area Action Plan
 - Work Stream 2 – Analysis of patient flow to inform a C&M Cross Charging Policy
 - Work Stream 1 – Develop a C&M Service Specification incorporating the National Specification
- Today's workshop is linked to Pilot Work Stream 1

Work Stream 3 – Explore Prevention of STIs, Self Help, Self Service to develop a Local Area Action Plan

- This Work Stream has not commenced
- It will involve:
 - Analysis of Research and Best practice guidance, and Return on Investment findings
 - Stakeholder engagement sessions
 - Consultation on draft Local Area Action Plan
 - Report with final plan for strategic adoption

Work Stream 2 – Analysis of patient flow to inform a C&M Cross Charging Policy

- This work stream has commenced:
 - Patient flow analysis for CaSH and GUM by PHE and C&M Commissioners
 - Department of Health are updating the National Cross Charging Guidance
 - Both of the above will lead to a draft C&M Cross Charging Policy
 - Then engagement / consultation arrangements would follow
 - Report with final policy for adoption

Work Stream 1 – Develop a C&M Service Specification incorporating the National Specification

- Our focus today and your feedback will inform this work
 - Progress:
 - Held Commissioner Engagement event identified work needed on three pathways – HIV, ToP and Cervical Screening
 - National updating of the Service Specification is underway
 - This will be incorporated into the C&M service specification
 - This working Specification is developing in three parts
-

Part A – Introduction and Service Specification Summary

- How to use the Specification
- Overview of the Service Specification and LA Commission – commissioning position C&M
- Commissioning Landscape – explaining NHSE, CCGs and LA PH responsibilities

Part B – National Service Specification and C&M requirements

- National / Local Context and Evidence Base
 - Key Service Outcomes
 - Scope
 - Applicable Service Standards
 - Financial
 - Appendices
 - Service Levels
 - National Quality Outcome Indicators
 - Cheshire & Merseyside Performance Monitoring Framework
 - Outcomes and Quality Indicators
 - Sexual Health System Leadership
-

Part C – Pathway Requirements for services that connect with Sexual

Health Services commissioned by LAs

- Introduction
 - HIV services
 - Genital Dermatology services
 - Termination of Pregnancy services
 - Cervical Screening services
 - Psychosexual Health services
 - Maternity services
 - Pharmacy services
 - Drug and Alcohol Services
 - Safeguarding
-

Table Tasks – set out on the programme for today

Task 1. Consider the Commissioning Survey key messages and your experiences of delivering sexual health services. Discuss how your experiences could inform the development of a future Cheshire & Merseyside Service Specification

Task 2. Consider the key pathways identified by Commissioners – HIV diagnosis treatment and care, Cervical screening and Termination of pregnancy, is there any scope for future pathway improvement? Are there any other pathways that you would priorities for development?

Task 3. Discuss any workforce challenges that sexual health services face and what could help?

Task 4. Discuss views on types of commissioning arrangements for sexual health services e.g. Lead Provider with Sub Contracting arrangements, Consortia bids, other?

Round Up
