

Building back fairer in Cheshire and Merseyside

Cheshire and Merseyside's Marmot Community launch event

Working together to improve health and wellbeing in Cheshire and Merseyside

7th July 2021

The ambition for improving population health in Cheshire and Merseyside

Sarah O'Brien – Executive Director of Strategy and System Development for the Cheshire and Merseyside Health and Care Partnership

Eileen O'Meara – Senior Responsible Officer for Population Health and Director of Public Health for Halton

Our ambition

- 1. To build on our work from over the past two years to **become a Marmot subregion** that genuinely **tackles inequalities** by working together in partnership: local communities, Local Authorities, NHS, businesses, police, voluntary sector, universities, schools and all
- To use our joint influence to challenge inequality and change things for the better in Cheshire and Merseyside

About the Cheshire and Merseyside Health and Care Partnership

The Cheshire and Merseyside Health and Care Partnership is the second biggest Integrated Care System (ICS) in the country. It is made up of...

9 Local Authorities

17 NHS Trusts & 51 PCNs

9 Clinical Commissioning Groups (CCGs)

2.6 million residents

Being driven by intelligence

Cheshire and Merseyside Health and Care Partnership will determine the long-term strategy and plan for health and care in the region, using the shared data, combined analytic and integrative informatics capability of the System P co-operative

The Cheshire and Merseyside 6 Ps Collaborative will use data from Graphnet integrated NHS, local authority and public health data to produce strategic and tactical intelligence to better target resources, particularly in tackling inequalities. This will support delivery of the Partnership's 5-10-year strategy. The System P Collaborative will attract additional research and innovation investments from the Health Foundation, NIHR, MRC, NHSE&I and other sources.

> Graphet has been deployed in 2020 for population health intelligence via data fusion across GP, hospital, community, mental health, socal care and public health sources – as CIPHA, and could deliver a shared care recpord (as in Greater Manchester and Staffordshire).

Working together to improve health and wellbeing in Cheshire and Merseyside

.....

Informed by research expertise

- Development of diagnostic indicators for ongoing monitoring of inequalities
- Identifying opportunities through system wide levers
- Make practical recommendations about how to reduce inequalities
- Develop a model of what good looks like
- Indicate where capacity and roles need to be developed and assisted

Local example: Warrington and Halton Teaching Hospitals NHS Foundation Trust

Unleashing the power of the NHS to help our communities to be healthy, happy and productive

As an 'anchor' institution in Warrington and Halton, the local hospital Trust is in a clear position to positively contribute to local areas in many ways beyond providing healthcare and the direct outcomes of treatment and interventions.

This includes playing a key role in contributing to social value, addressing health inequalities and positively impacting the green agenda.

Local example: Warrington and Halton Teaching **Hospitals NHS Foundation Trust**

Unleashing the power of the NHS to help our communities to be healthy, happy and productive

Purchasing more locally and for social benefit

Using buildings and spaces to support communities

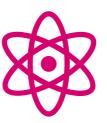

Working more closely with local partners

Reducing our environmental impact

Widening access to quality work

Promoting skills and employment

Building stronger and deeper relationships with the voluntary and social enterprise sector

Promoting Social Innovation

The reduction in unfair and avoidable differences in health across communities and different groups across society

Cheshire and Mersevside

Local example: Working with Sports Partnerships

- Creating and embedding a whole-system approach to physical activity across Cheshire and Merseyside
- Linking nationally with the Department for Culture, Media and Sport (DCMS) and Sport England
- Ambition: 150,000 more active people across Cheshire and Merseyside by 2026

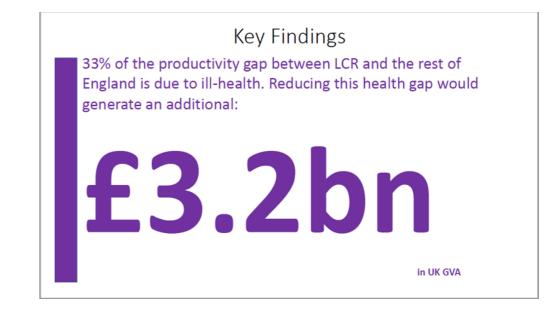

Changing the economy

- Fair pay and fair hours
- Health, safety, and wellbeing
- Inclusive workplaces that support diversity, flexible working, as well as staff development and progression
- A voice for staff to help deliver justice in the workplace, with opportunities available for young people and others

Thank you!
